

PRESS RELEASE: 20 JUNE, 2022

## **Kate Hammer's Childhood Adoption Desire in 'Bruce Willis Is My Dad'**

Writer/Performer: KATE HAMMER  
The Brass Monkey, August 2022

We all have feelings of not belonging. But not everyone watched Die Hard too young and believe Bruce Willis is their real dad. This is a true story.

Daddy issues taken too far, or not far enough? Kate's only issue is that Bruce refuses to submit himself to a DNA test to (dis)prove once and for all that she is his daughter. This is a journey through Bruce's schedule around the time of Kate's conception, his films, and the tasteful question of if Bruce and my mum ever "held hands". Created before his diagnosis, but more timely for it, this a celebration of Bruce's work, and his role as Hollywood's dad figure. It's also an introspective look at what happens when a little girl on a goat farm doesn't fit in with her own family.

Kate Hammer is a pro at making space for stories wrapped around stand up, performing at Just For Laughs, opening for Karen Dunbar, and recently making it to the semi-finals of the LGBTQ New Comedian of the Year 2022. She's a new writer and comedian who is pushes what queer, neurodivergent comedians can and should say on stage.

Yippee-ki-yay, everyone. Yippee-ki-yay.
